

SAP HANA SERVICES

Enabling Real-time, Self-Service, Mobile and Predictive Analytics

Leverage the power of in-memory and columnar computing from SAP HANA across the available versions - BW/4HANA, Embedded Analytics on S/4HANA, Analytics on Suite on HANA, BW on HANA, Enterprise HANA - either individually or in any possible combination

- ✓ Real-Time Business Intelligence
- ✓ Faster Data Loads & Reports
- ✓ Single Source of Truth
- ✓ Enhanced Self-Service and Mobile BI Adoption
- ✓ Big Data and Internet-of-Things Integration
- ✓ Predictive Analytics Implementation

“To call this a ‘learning experience’ is a gross understatement. This is new terrain for our enterprise, and we’ve all learned quite a bit about what lies ahead of us”

Director, Enterprise Applications
An Oil & Gas E&P Company

END-TO-END SAP HANA SERVICES

Migrate to BW on HANA or BW/4HANA

Are you dealing with increasing data volumes, growing number and complexity of scenarios and data models? We can take care of your needs with best practices in implementing the latest hybrid architecture running BW on SAP HANA or SAP BW/4HANA.

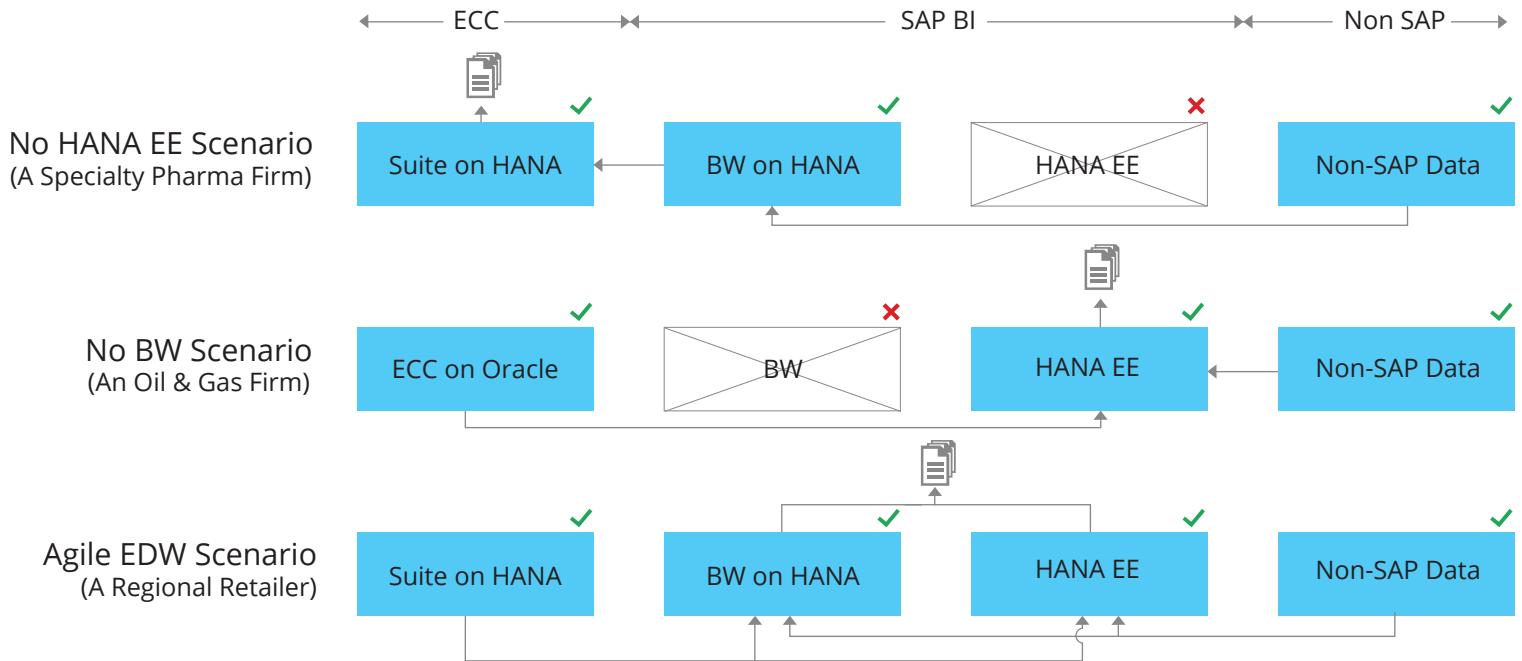

Reach out to us to learn if you are ready for BW/4HANA.

- ✓ Pre-Upgrade and Post Go Live Checklists
- ✓ Migration Assessment and Management
- ✓ Migration Test Accelerators For Rapid Deployment
- ✓ System and Landscape Changes Tracker and Manager (Custom Software)
- ✓ HANA Optimization

“The migration to SAP HANA allowed us to keep our data warehouse and analytics environment untouched while gaining a tremendous performance advantage”

Nik Pottala, CIO & VP of Administration
Continental Resources
