

Case Study

Procurement Analytics For A Leading Chemicals Firm

Industry
Chemicals

Location
United States

Revenue
40+ Billion USD

Function
Procurement, Sales, Supply Chain & Transportation

Challenges

- Last mile consumption of BI was through spreadsheets generated from legacy BI reports, leading to multiple versions of truth
- Wasted man-hours due to analysts spending time & effort on massaging spreadsheet data

Solutions

- SAP BW Query Development
- Xcelsius to Design Studio
- Migration Analysis For Office
- Product Extensions (VBX)

- Delivered an automated and dynamic procurement analytics solution for EMEA users that delivered 'single version of truth' and eliminated need for manual processing
- Incorporated near-real-time insights on Purchase Orders, Requisitions and PO Changes
- Enabled users to slice and dice KPIs by region, plant, purchasing group, type (manual/automated), cost center, project, work order, inventory and more
- Empowered users with ability to view open requisitions, requisition-to-PO lead times, PO Value, PO Line items
- Leveraged Visual BI Product Extensions (VBX) for SAP Design Studio
