

Case Study

Next Generation Data Warehouse Using S/4HANA and BW/4HANA

Industry

Largest Drilling Rig Contractor

Location

Canada

Challenges

- Configured and implemented SAP BW/4HANA & S/4HANA Embedded Analytics
- Implemented Plant Maintenance, accounting and EHS modules
- Implemented custom extraction from S/4HANA system
- Established modelling guidelines and a foundation for an EDW
- Hybrid modelling including BW and HANA Models

Technology

- BI Implementation
- BI Installation & Configuration
- SAP BW/4HANA rollout
- SAP S/4HANA Embedded Analytics
- SAP HANA Modelling
- SAP Lumira Designer dashboards
- SAP Business Objects implementation
